VISION OF GFRA
A coordinated global alliance of scientists producing evidence and innovation that enables the progressive control and eradication of FMD.

MISSION OF GFRA
To establish and sustain global research partnerships to generate scientific knowledge and discover the tools to successfully prevent, control and eradicate FMD.

PROGRAMS OF GFRA
GFRA aims to expand FMD research collaborations worldwide and maximize the use of resources and expertise to achieve its five strategic goals (see below).

Several research programs are currently active in Europe, North America, South America and South-East Asia. GFRA programs will continue to expand the alliance in these areas and will actively reach out to new areas of the world that have a stake in the progressive control and eradication of FMD.

Global African Swine Fever Research Alliance

Mission of GARA

To establish and sustain global research partnerships that will generate scientific knowledge and tools to contribute to the successful prevention, control and where feasible eradication of African Swine Fever (ASF).

Vision of GARA

A coordinated global research alliance enabling the progressive control and eradication of ASF.

Strategic Goals of GARA

- Goal 1. Identify research opportunities and facilitate collaborations within the Alliance
- Goal 2. Conduct strategic and multi-disciplinary research to better understand ASF
- Goal 3. Determine social and economic drivers and impact of ASF
- Goal 4. Develop novel and improved tools to support the prevention and control of ASF
- Goal 5. Determine the impact of ASF prevention and control tools
- Goal 6. Serve as a communication and technology sharing gateway for the global ASF research community and stakeholders
